PROFESSIONAL SUMMARY

Final-year CSE student (**CGPA 9.4/10**) with **Global Rank 8750 in TCS CodeVita Season 13** — top **8.75%** among 100,000+ participants worldwide. Strong foundations in **Data Structures, Algorithms and Object-Oriented Programming**, with **250+ coding problems** solved. Proficient in Python and Java, with hands-on full-stack experience across three internships and multiple deployed projects.

EDUCATION

Degree	Specialization	Institution	Year	CGPA/%
B.Tech	CSE	RVR & JC College of Engineering, Guntur	2023–2027	9.4/10
Intermediate	MPC	St. Ann’s Junior College for Girls	2021–2023	98.5%
SSC	–	Success High School	2021	99.3%

TECHNICAL SKILLS

- **Languages:** Python, Java, HTML5, CSS3
- **Data Structures & Algorithms:** Arrays, Strings, Hashing, Searching, Sorting, Recursion, Stacks, Queues, Linked Lists
- **Core CS:** Object-Oriented Programming, Operating Systems, Computer Networks, SDLC, DBMS
- **Web Technologies:** React.js, Node.js, Express.js, Angular
- **Familiar with:** JavaScript, SQL
- **Methodologies:** Agile, Scrum
- **Tools:** Git, GitHub, Firebase, VS Code, Jupyter Notebook, Excel

PROJECTS

- Weather Forecast App** | *React.js, Node.js, Express.js*

Github

 - Built a full-stack weather application integrating real-time temperature, humidity and wind-speed data from the Open WeatherMap API.
 - Implemented dynamic city-based and coordinate-based search with a responsive UI across mobile and desktop devices.
 - Deployed on Vercel with a decoupled frontend–backend architecture, securing API credentials via environment variables.
- Google Play Store App Data Analysis** | *Python, Pandas, Matplotlib*

Github

 - Performed exploratory data analysis on **10,000+ applications** to identify rating, install and pricing trends.
 - Cleaned and processed raw datasets using Pandas, handling missing and inconsistent values for accurate insights.
 - Visualized data patterns using Matplotlib to support decision-making insights.
- Interactive Quiz Application** | *JavaScript*

Github

 - Developed a quiz platform supporting multiple categories with dynamic question loading.
 - Implemented real-time score tracking and result calculation logic for better user engagement.
 - Optimized frontend logic and reduced redundant API calls to improve responsiveness.

INTERNSHIPS

- Java Full Stack Developer Intern** – AICTE

Oct – Dec 2025

 - Integrated frontend, backend and database modules across **3+ full-stack applications** using Java and SQL.
- Web Development Intern** – SkillDzire

May – June 2025

 - Developed and enhanced 2 responsive web interfaces using HTML, CSS and JavaScript, ensuring cross-browser and cross-device compatibility.
- Python Development Intern** – Cognifyz Technologies

Oct – Nov 2024

 - Developed and automated Python scripts for repetitive tasks, improving execution efficiency by **20%**.

CERTIFICATIONS

- Prompt Engineering – IBM Cognitive Class
- Responsive Web Design – FreeCodeCamp
- Data Engineering – AICTE
- Tata Forage Data Analytics Certification – Tata Forage

ACHIEVEMENTS & ACTIVITIES

- **Global Rank 8750** in TCS CodeVita Season 13 – top **8.75%** among 100,000+ participants worldwide.
- Solved **250+ coding problems** focused on DSA, analytical thinking, and problem-solving.
- Secured Gold badge in Nptel Human Computer Interaction course with 95% and 4 Credits
